

REAL HELP IN REAL TIME FOR METASTATIC BREAST CANCER PATIENTS, THEIR FAMILIES AND FRIENDS

BCMets.org features:

- An online discussion board with ongoing input from experienced Metastatic Breast Cancer Patients
- Searchable Archives
- No advertising

"BCMets.org is without a doubt the best site on the internet for Stage IV Breast Cancer patients. It is a list where passion, compassion, information, spunk, fun, love, fears, tears and frustration are posted, tolerated, welcomed and loved."

- Linda, BCMets.org Member

"I started BCMets in 2000 with my first wife, Menya Wolfe, because we wanted a way for women to share what they knew about living with metastatic breast cancer. Since then, it has grown to over 1,000 members, and has saved many lives by getting information quickly to people who need it. I am proud to know such a strong, loving group of women."

- Pete Bevin, BCMets.org List Owner
